Additional Information

Your child will dress out for Physical Education. Students will need: tennis shoes, athletic shorts or sweats, t-shirt, swimsuit (1-piece preferred for females).

Some students purchase locker organizers for their lockers but this is not necessary. In addition your child's locker does not have a lock. You may check a combination lock out through the front office or purchase one for your child. The front office will need the combination or the extra key if you purchase one individually.

OTHER HELPFUL INFORMATION:

- Please label all Physical Education clothing, calculators and rulers with your child's initials or name.
- Please write your child's name on the front of each folder and notebook.
- Your child can re-use 2-pocket folders for exploratory courses as well as courses that are one semester in length.
- Multi-folder organizers, expandable folders are discouraged as we commit to teaching students organizational and time management skills.
- Students may not be allowed to carry backpacks into the classroom. Students will have enough time to go to their lockers between classes.

****Parents are not required to provide classroom supplies but will always be accepted if offered to donate.**
